Art Unit: 1711

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

2. Claims 1, 4, 7, and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 01/25359.

The reference discloses polyurethane diacrylates and powder coatings derived from the polyurethane diacrylates, wherein the polyurethane diacrylates are produced from the reaction of hexane diisocyanate with ethylene glycol, butanediol, and hydroxyethyl acrylate in a molar ratio that meets that claimed. See example 5 on page 46 and examples 3 and 4 on pages 49-51. Though other mixtures of diols are not exemplified that specifically meet those claimed, the reference does disclose the use of other diol species that meet those claimed at page 22, lines 18-25. Since the diols of the exemplified blend are included within this listing of diols, this listing essentially establishes the equivalency of the disclosed other diol species to those of the example. Accordingly, it would have been *prima facie* obvious to utilize any of the disclosed diols in the

Application/Control Number: 10/782,098

Art Unit: 1711

form of blends in the production of the polyurethane diacrylates, in accordance with the teachings of the example.

Page 3

- 3. Applicants have argued that their invention yields unexpected results over the prior art and have provided a 37 CFR 1.132 declaration to demonstrate these results. The examiner has considered applicants' declaration; however, the declaration is deficient, because the examples of the declaration are not commensurate in scope with the claims. The claims encompass acrylate species, diol species, and molar ratios that are not exemplified within the declaration. It has been held that evidence of unexpected results must pertain to the full extent of the subject matter claimed. *In re Ackermann*, 170 USPQ 340; *In re Chupp*, 2 USPQ2d 1437, 1440; *In re Murch*, 175 USPQ 89. Accordingly, it has been held that to overcome a reasonable case of *prima facie* obviousness, a given claim must be commensurate in scope with any showing of unexpected results. *In re Greenfield*, 197 USPQ 227. Furthermore, it has been held that a limited showing of criticality is insufficient to support a broadly claimed range. *In re Lemin*, 161 USPQ 288. For these reasons, applicants' declaration is insufficient to overcome the prior art rejection.
- 4. It is noted that WO 01/25359 corresponds to U.S. Patent 6,825,241.
- 5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Application/Control Number: 10/782,098 Page 4

Art Unit: 1711

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to R. Sergent at telephone number (571) 272-1079.
